

Hungry4HIM exists to disciple children of poverty in Kenya and provide for their basic needs. We do this by partnering with Kenyan church leaders who are already hard at work meeting these needs.

Monthly sponsorship (\$25 per month) includes two hot meals per day, school supplies for the academic year, and a new uniform each year. The Kenyan school year begins in January. Uniforms are being made and school supplies are being purchased right now.*

Two hot meals each day for children like Jactone costs about \$1 per day.

For Austine to have all the school supplies he needs for the year, and a backpack to carry them in, he needs \$25 per year.

Current Numbers

There are currently 383 children attending Benard's Vision School in Ahero, Kenya (our first, and only, international partnership).

Hungry4HIM has 125 sponsors who are contributing for the monthly needs of these children.

Here is a brief snapshot of what that money provides.

For only \$32 per year Sherryl will be more welcome in her community because she has a uniform to wear to school each day.

**It costs \$25 per month to sponsor one of these children. You can learn more about sponsorship on our website: <http://www.hungry4him.com>. Click "Sponsor A Child" to get started today.*

Each year at Hungry4HIM we provide an opportunity for our sponsors and donors to give above and beyond their normal contributions. It's our way of saying to our Kenyan partners, "Merry Christmas!"

This year we have put together a Christmas Catalog to help you see where the money goes...and just how far it will go!

We hope that you find the following information helpful, but most of all we pray that you use it to spread the word about our Kenyan family struggling to make ends meet this holiday season.

We have so much to be thankful for; will you partner with us this Christmas as we give out of our abundance so that we can continue providing for the needs of Kenyan children?

Thanks in advance!
